

## POINT TO PONDER: A story about research

In other words, a literature review must be completed before any research is conducted. This is to make sure that we actually comprehend the goal of the study and that the right data collection technique is being used.

As was mentioned in the previous session, examining prior research incorrectly could lead to significant misunderstandings in our own study. Next, it must be used in conjunction with the appropriate technique. The right approach to gather data and do analysis is what's meant to be understood here.

The term "literature review" is only two words, yet it means a lot. Because of literature, research must be grounded in genuine studies that have been formally documented by other researchers. Review implies that in order to determine the true situation, all of the collected data must be examined and evaluated. You are to conduct the review.

We will learn how to identify the findings of earlier scholars' investigations in this session. We require prior study papers from research journals in order to conduct scientific research. Although they can be used, reading materials such as magazines, newspapers, tabloids, and interviews cannot be used to make convincing arguments.

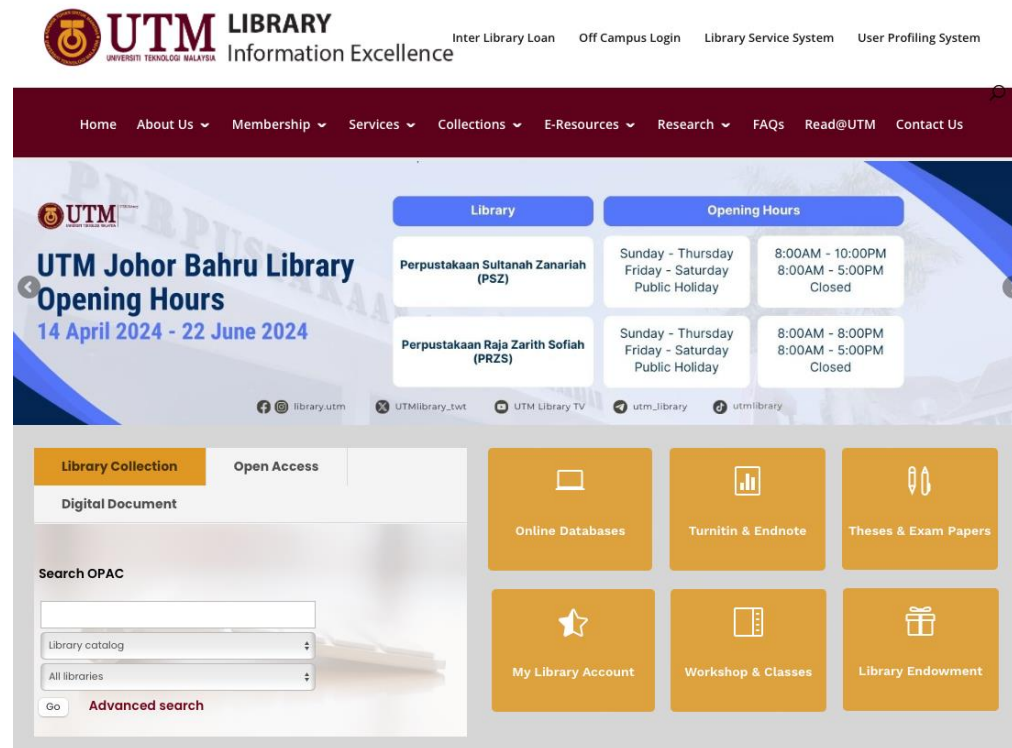

DR. SYAHRULLAIL SAMION

A high-quality journal search portal is offered by Universiti Teknologi Malaysia (UTM). Students can click the following link to access the UTM library's website.

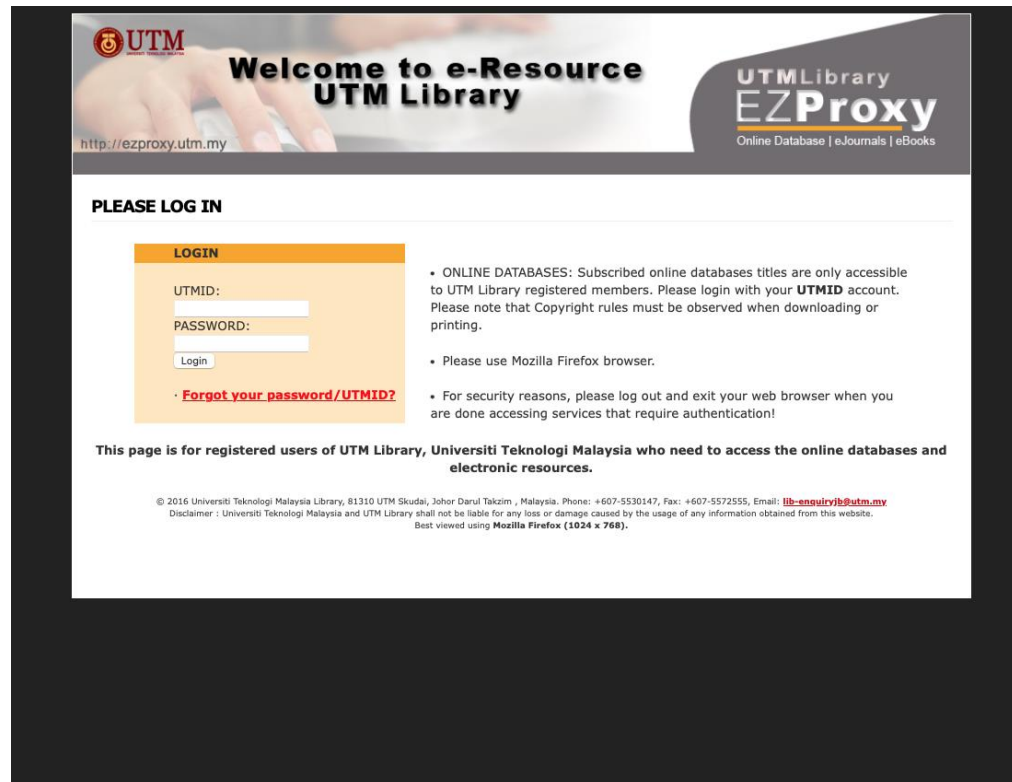

<https://library.utm.my>

This is the webpage for the UTM library. You can find a variety of information on this page. Please select "Online Database" from the menu to begin a journal search.

The screenshot shows the UTM Library website homepage. At the top, there is a navigation bar with the UTM logo and the text "UTM LIBRARY Information Excellence". Below the navigation bar, there is a main content area with a dark red header containing a menu: Home, About Us, Membership, Services, Collections, E-Resources, Research, FAQs, Read@UTM, and Contact Us. The main content area features a large banner for "UTM Johor Bahru Library Opening Hours" from 14 April 2024 to 22 June 2024. To the right of the banner, there are two columns of information: "Library" and "Opening Hours". The "Library" column lists two libraries: Perpustakaan Sultanah Zanariah (PSZ) and Perpustakaan Raja Zarith Sofiah (PRZS). The "Opening Hours" column lists the hours for each library: Sunday - Thursday (8:00AM - 10:00PM), Friday - Saturday (8:00AM - 5:00PM), and Public Holiday (Closed). Below the banner, there are social media icons for Facebook, Twitter, YouTube, and Instagram. The main content area also features a "Library Collection" section with a "Digital Document" tab and a "Search OPAC" section with a search box and a "Go" button. On the right side, there is a grid of six orange buttons: "Online Databases", "Turnitin & Endnote", "Theses & Exam Papers", "My Library Account", "Workshop & Classes", and "Library Endowment".

To access the website, you must enter your UTMID and password. Contact a library officer to obtain your UTMID and password if you have not yet obtained them.

The screenshot shows the login page for UTM Library EZProxy. At the top, there is a banner with the UTM logo, the text "Welcome to e-Resource UTM Library", and the URL "http://ezproxy.utm.my". To the right of the banner is the "UTMLibrary EZProxy" logo with the tagline "Online Database | eJournals | eBooks". Below the banner, the page is titled "PLEASE LOG IN". On the left, there is a "LOGIN" box with input fields for "UTMID:" and "PASSWORD:", a "Login" button, and a link for "Forgot your password/UTMID?". To the right of the login box, there are two bullet points: "ONLINE DATABASES: Subscribed online databases titles are only accessible to UTM Library registered members. Please login with your UTMID account. Please note that Copyright rules must be observed when downloading or printing." and "Please use Mozilla Firefox browser." Below these, another bullet point states: "For security reasons, please log out and exit your web browser when you are done accessing services that require authentication!". At the bottom of the page, there is a disclaimer: "This page is for registered users of UTM Library, Universiti Teknologi Malaysia who need to access the online databases and electronic resources." and "© 2016 Universiti Teknologi Malaysia Library, 81310 UTM Skudai, Johor Darul Takzim, Malaysia. Phone: +607-5530147, Fax: +607-5572555, Email: lib-enquiry@utm.my. Disclaimer: Universiti Teknologi Malaysia and UTM Library shall not be liable for any loss or damage caused by the usage of any information obtained from this website. Best viewed using Mozilla Firefox (1024 x 768)."

This will be the next screen you see after logging in. To view more menus, scroll down.

You should be aware that some publications might not be able to provide high-quality search results. This is the consequence of publishers who specialise in different fields. For instance, if you are looking for the area of engineering, please look in the engineering publisher rather than the economics publisher.

Those that are frequently applied in mechanical engineering include:

Scholarly Journals

Overview Author Resources Reviewer Resources

### SAE International Scholarly Journals

For more than 15 years, SAE International's Scholarly Journals have been covering all areas relevant to ground vehicle, commercial vehicle, and aerospace engineering technology, including transportation cybersecurity and privacy, connected and automated vehicles, electronic and mechanical systems, engines, fuels and lubricants, transportation safety, materials and manufacturing, vehicle dynamics, and alternative powertrains. SAE connects and educates mobility professionals to enable safe, clean, and accessible mobility solutions. Our Journals aim to meet the needs of academic and industry authors, researchers, and readers in a manner that is tailored for the discovery, integration, and application of research. Aligning with SAE's mission, the Journals publish state-of-the-art research findings that advance mobility knowledge and solutions for the benefit of humanity.

It is also suggested that students look around this website. This website offers a range of resources to help students with everything from Master Project registration to presenting their thesis to faculty. This page offers access to plenty of interactive information.

<https://masterproject.c23434.net>

MASTER PROJECT  
FACULTY OF MECHANICAL ENGINEERING  
UNIVERSITI TEKNOLOGI MALAYSIA

INTRODUCTION

A Master Project is an individual research work conducted by a "Master by Taught Course" student as a part of the requirements for the award of Master degree for the following programmes:

- Master of Science (Mechanical Engineering) - MEMM
- Master of Science (Industrial Engineering) - MEMI

It is a systematic and an appropriate individual training to conduct an original research or to further investigate an existing work. A Master Project consists of a range of analytical and research skills which are generally transferable lifetime skills of value now and in subsequent careers.

The goal of this programme is to improve the skill and knowledge of engineers in various aspects of mechanical engineering and their applications, so that they will be more capable to handle their jobs and responsibility professionally.
